

exchange.Exchange

```
classDiagram
    class exchange_FoxBit["exchange.FoxBit"]
    class exchange_Exchange["exchange.Exchange"]
    exchange_FoxBit --|> exchange_Exchange
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'exchange.FoxBit'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'exchange.Exchange'. This indicates that 'exchange.FoxBit' inherits from 'exchange.Exchange'.
